MEMORANDUM FOR THE RECORD

25X1A

SUBJECT: Proprietary Withdrawals and the Contingency Reserve

REFERENCE: Memo to DCI from C/CCS, dated 8 Jan 74,  
subject:

1. The Director indicated this morning (telecon) that he wished our policy with regard to funding of the Contingency Reserve by withdrawals from Agency proprietaries to be as follows:

25X1A

When funds are withdrawn from proprietaries, they will be transferred to the Contingency Reserve where they will be used only, and as a part of the Reserve itself, after approval of the appropriate authorities, mainly OMB, and notification to the Chairmen of our Committees.

2. N.B.: This reverses the policy in reference and correctly implies that when the Reserve is used to supplement appropriations, it is so used only after OMB and the Congress agree. The latter approval is obtained in the course of the normal appropriation process.
